

Enery-Efficient Packaged Gas Electric Units

Up to 16 SEER | 81% AFUE APG16M

Packaged Gas Electric Units

APG16M UP TO 16 SEER 81% AFUE

Features to be proud of:

Energy Efficiency

Energy efficiency equates to cost savings. An Amana brand APG16M Packaged Gas Electric Unit offers up to 16 SEER performance during the summer months. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost. Compared to lower SEER units, an Amana brand Packaged Gas Electric Unit can provide significant savings on your electric bill.

Quiet Comfort

You can be assured that your Amana brand APG16M Packaged Gas Electric Unit will provide you with quiet operation. To minimize operating sounds, we've combined quiet compressor technology with a high-density foam sound cover and a fully insulated blower compartment to provide unobtrusive performance.

An enhanced level of comfort before and after your purchase

When it's time for a new indoor comfort system, you shouldn't have to sweat the decision of which manufacturer to choose. The legendary **Amana** brand, trusted by generations for its performance and reliability, gives you one less thing to worry about. Choose an **Amana** brand APG16M Packaged Gas Electric Unit with confidence, knowing you're getting the world-class engineering and good ol' American craftsmanship you've come to expect from the **Amana** brand.

Gas and electric functionality make this the total package

Operated as an electricity-powered air conditioner in the summer and a gas-fueled furnace during the winter, an Amana brand APG16M Packaged Gas Electric Unit offers years of costeffective, worry-free indoor comfort from a single, self-contained unit. Units can deliver cooling or heating capacity from two to five tons, a Seasonal Energy Efficiency Ratio (SEER) of up to 16 and 81% Annual Fuel Utilization Efficiency (AFUE).

You'd be hard-pressed to find a better compressor

Perhaps this packaged unit's most important component in terms of cooling efficiency and performance is the compressor — the heart of this system's summer operation. The Amana brand APG16M Packaged Gas Electric Unit features an energy-efficient compressor.

The security of the **Amana** brand's amazing limited warranties*

To truly seal the deal, the Amana brand APG16M Packaged Gas Electric Unit is backed by some of the best warranties* in the industry. The longevity of premium Amana brand products combined with this excellent warranty* coverage offer you a level of purchase protection that's the stuff of legend.

LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www. amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty, Lifetime Compressor Limited Warranty (in each case good for as long as you own your home), 2-Year Unit Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration and some of the additional requirements are not required in California or Quebec.

EXTENDED SERVICE PLANS AVAILABLE

For even greater peace of mind, ask your dealer or visit our website at www.amana-hac.com for more details about Asure", an affordable Parts and/or Labor Extended Service Plan for your entire **Amana** brand HVAC system.

The **Amana** brand APG16M Packaged Gas Electric Unit advantages:

- Efficient Cooling Capacity 5 millimeter (select models) refrigeration grade premium copper tubing and aluminum fin condenser coil configuration delivers outstanding heat transfer properties.
- All-Aluminum Evaporator Coil A single metal solution that is designed for enhanced durability and performance (select models).
- Stainless Steel, Tubular Primary Heat Exchanger

 Distinctive heat exchanger employs wrinklebend technology which was developed to deliver extraordinary durability and long-term reliability.
- Comfort Speed™ Technology Designed to automatically adjust output based on cooling demand – full, 100% capacity for extreme temperatures, and reduced capacity for milder days. A system with Comfort Speed technology may lower your energy costs when compared to a single-speed unit that only runs at 100% on or 100% off.
- Heavy-Gauge Galvanized Steel Enclosure with Powder-Paint Finish – Protects your system from extreme outdoor elements.
- Fully-Insulated Blower Compartment Designed for quiet performance. Panels are conveniently located to provide easy access.
- Self-Contained Packaged Unit Designed for multi-position installation.

UP TO **16** SEER **81%** AFUE

Model	SEER	AFUE	EER	Capacity
APG16M	Up to 16	81%	12	2 to 5 Ton

A legacy of comfort

The impeccable reputation of an American original
